I specialize in working with startups and agencies to strategize how to build sites and applications from concept to completion. By focusing on our process, my teams and clients launch products under aggressive deadlines that do not compromise on long-term maintainability. I love the challenge of improving everyday life through design and tech, and giving back to the community through mentorship is as important to me as my body of work.

DEVELOPMENT EXPERIENCE

Lead Developer • Codename: Calltime • Remote 12.2018 - Current

- Determined and implemented consistent process and best practices for implementing work from freelance contributors
- Planned roadmap for launching application and defined deliverables for each launch phase
- Managed Twilio Back-End Microservice and React Front-End

Developer • Blueprint Interactive • Washington, DC 04.2018 - 12.2018

- Front-End lead on a major internal project, made high-level strategy decisions and delegated tasks across multi-disciplinary team
- Built 31 unique CMSable sites in Wordpress and Drupal
- Became go-to developer for specialized tasks, including Geocoding large datasets and grooming development-friendly design assets
- Refactored and contributed new features for five proprietary modules

Web Development Immersive Student • General Assembly • Washington DC 11.2017 - 02.2018

- Invested 420 work hours over 12 weeks learning and practicing full-stack web development.
- Submitted pull requests for improving assignments and resources, including pre-bootcamp installation

Front-End Developer • KidMix • Gaithersburg, MD 12.2015 - 02.2016

- Redesigned generic "Coming Soon" home page to implement promotional video and application screenshots. Established clear Call to Action to the email signup form.
- Developed features for AngularJS dashboard application.
- Achieved 56% growth in email signups.

Development Intern • RepEquity • Washington DC 05.2015 - 10.2015

- Completed 22 projects in cross-functional teams
- Specialized in SVG animations and led six-person trainings on how to develop with SVG assets

FEWD Teaching Assistant • General Assembly • Washington DC 05.2015 - 07.2015

- Supported class of 20 students, including three additional hours of individual support weekly.
- Maintained course website and contributed to lesson resources.
